

Loften

SAN RAMÓN
NORTE

diseño+estilo

A photograph of a modern, multi-story building facade. The building features a series of vertical concrete fins that create a rhythmic, stepped profile. Large windows are interspersed between these fins. Some sections of the facade are clad in light-colored, textured stone. The ground floor appears to be a parking area with several cars parked. The sky is blue with scattered white clouds. In the bottom right corner, there is a large white number '10'.
