

TEMPLIA

- TEMPLO LUNA -

“Tulum no es solo un lugar, es la proyección del cielo en la tierra.”
“*Tulum is not just a place, it is the projection of heaven on earth.*”

TEMPLIA

- TEMPLO LUNA -

Tulum es una de las poblaciones mayas mas visitadas.

La selva se funde con la arena blanca dando libertad a sus amaneceres que pintan el mar de sus costas paradisiacas.

Lúum Zama busca respetar la naturaleza y por este motivo, ha protegido el 60% de la vegetación.
Una comunidad privada que provee largas áreas verdes y brinda hermosas vistas de la jungla.

Tulum is one of the most visited Mayan cities.

The jungle merges with the white sand giving freedom to its sunrises that paint the sea of its paradisiacal coasts.

*Lúum Zama respects nature and for this reason, has protected 60% of the vegetation.
Planned as a private community that provides long green areas, and beautiful views of the jungle.*

TEMPLIA

- TULUM LIVING -

Es un concepto arquitectónico postrado en la selva que invita a experimentar el pasado, vivir el ahora y proyectar el futuro, rodeado de un ambiente de conexión espiritual.

Cada detalle de TEMPLIA esta cuidado para crear espacios contemporáneos que se proyecten en el futuro como un referente de nuestros tiempos.

Su diseño utiliza piedra de la zona, concreto pulido negruzco y tonos de verde Jade que se mimetizan con su entorno selvático.

La excelencia de este proyecto radica en detalles como herrerías artesanales, las cuales contienen incrustaciones de obsidias doradas en forma de rombos, dando como resultado una obra majestuosa.

It is an architectural concept prostrate in the jungle that invites to experience the past, live the present and project the future, surrounded by an environment of spiritual connection.

Every detail of TEMPLIA is selected to create contemporary spaces that are projected in the future as a reference of our times.

Its design uses local stone, polished blackish concrete and shades of Jade green that blend with its jungle environment.

The excellence of this project are details such as handmade ironwoks, which contain incrustations of golden obsidians in the form of diamonds, resulting in a majestic work.
