Note: Please add **US\$50** per wire to cover international fees, and incoming wire fees. This is separate from what is paid on your end. We are charged for incoming monies on our end.

Note: Please remember to send us a copy of the one-page receipt from your bank once the wire has been processed.

Note: Please be aware that it takes a few business days for the funds to arrive to our account. Even if the funds have left your account and if your bank tells you the funds have arrived they sometimes arrive to the main bank branch in the country, but do not appear in our account until the next day or later. We can only confirm receipt of funds when they appear in our account and then we can confirm to you. Thank you for your understanding.
