Macondo Ecolodge | Playas del Coco

Turnkey six unit coastal property close to the beach and town

Macondo Ecolodge is a newly built six unit property in a walkable area of Playas del Coco, just minutes from the beach, cafés, shops and everyday services. The property sits on a gated and landscaped lot and includes two furnished two bedroom residences and four studio apartments, along with a shared pool, shaded rancho lounge, laundry room and on site parking.

Each residence has its own entrance and comes furnished with air conditioning, Wi Fi and a kitchen, giving every unit the ability to function independently for owners or guests. Interiors are practical and well organized, allowing a buyer to start generating income immediately.

Macondo suits buyers looking for flexibility and a straightforward coastal property. You can live in one unit and rent the others, offer small scale boutique lodging or use the property as a shared retreat for family and friends. It is easy to manage and works well for both seasonal and full time living.

Macondo was built by a seasoned construction team with long experience in Costa Rica. The project uses treated wood and steel framing on an elevated foundation system, a choice that performs well in tropical areas. Building on pilings keeps the footprint lighter on the land, improves ventilation below the structures, manages moisture during rainy season and simplifies long term maintenance. These decisions align with the intention behind Macondo as a small scale eco lodge designed for coastal living.

Unit Mix
Two bedroom residences
65 m² | 700 sq ft

Studio apartments
30 m² | 323 sq ft
