NARIME HOMES

3BED 2BATH
121M2 / 1302 SQ.FT

FOR SALE
\$365,000

Introducing Narime Home, a newly built 3-bedroom residence in Playas del Coco. From the moment you arrive, you'll notice the warm tones and natural materials, treated wood, elevated foundations, and carefully selected finishes that suit Costa Rica's climate. The home brings together quality construction, clean modern lines, and a practical single level layout within a quiet neighborhood just three minutes from downtown Coco.

Narime offers 1,302 sq. ft. of interior space under AC, with 3 bedrooms and 2 bathrooms arranged across a comfortable and functional floor plan. The construction system uses steel framing on concrete foundations, lifted slightly off the ground (a low carbon footprint building method). Durable exterior panels pair with gypsum interior walls, while Laurel wood accents add warmth above. Inside, the home includes an open-plan kitchen with sleek countertops and custom cabinetry, a living area that connects easily to the outdoors, a laundry space, and a generous front terrace, ideal for relaxing or entertaining.

Outside, the fully fenced property includes parking for two cars, a refreshing plunge pool, and landscaped gardens for privacy and easy enjoyment.

Whether you're relocating full time or looking for a second home close to the beach, Narime offers comfort, style, and thoughtful design in one of Guanacaste's most welcoming seaside towns. just 30 minutes from Liberia International Airport and with no HOA fees.

Narime takes its name from natural inspiration. The builders bring more than five decades of experience and have delivered over 1,000 homes across Costa Rica. (Their construction approach emphasizes efficiency and low-impact practices.)

With delivery in 6 months, Casa Narime is offered as a pre-construction opportunity, allowing buyers to select finishes and colors during the build.
