BUILDING MPH-01

18,288 sqm/ 196,795.84 sf

- **Construction Type:** HSS steel structure with Tilt-Up concrete walls, windows, and AAA office-style façade
- **Floor Slab:** 8" (20 cm) MR-42 kg/cm² reinforced concrete floor
- **Roof Type:** KR-18 system with 5% natural lighting
- **Clear Height:** Max 49.2 ft / Min 38.1 ft (15 m / 11.6 m)
- **Column Spacing:** 39.4 ft x 72.2 ft (12 x 22 m)
- **Loading Docks:** 14 automatic sectional dock doors, 8 ft x 10 ft, with automatic dock levelers
- **Ramps:** 2 concrete ramps, 12 ft x 14 ft
- **Structure Type:** HSS (Hollow Structural Section)
- **Thermal Insulation:** Metal Building Insulation 2"
- **Fire Protection System:** Hoses and Cabinets
- **Interior Lighting:** 350 lux
- **Electrical Substation:** 1,500 kVA
- **Parking Spaces:** 152 parking spaces

Specs MPH-1

Prime Location

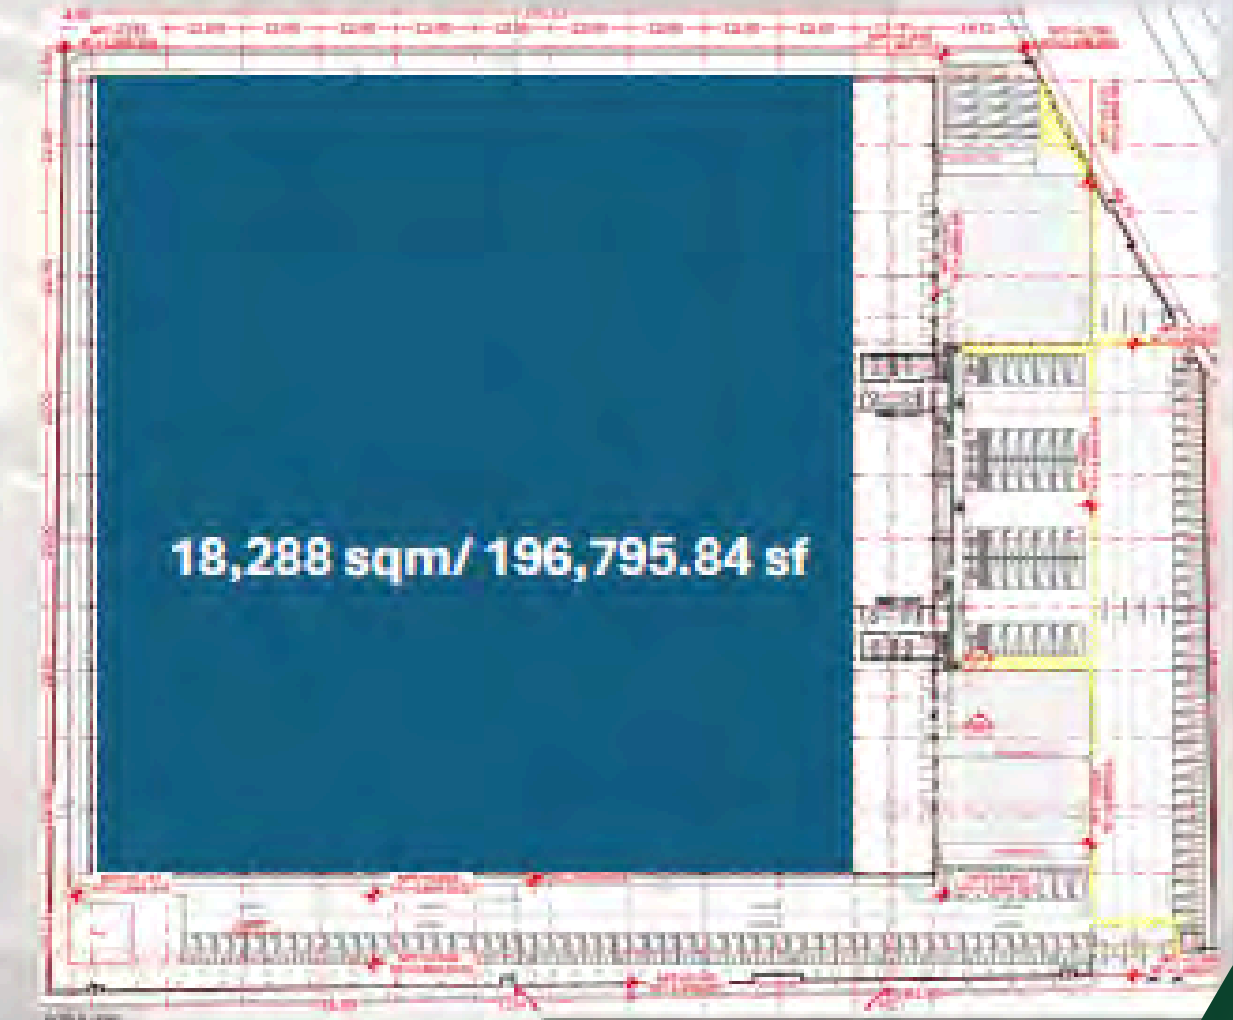

Directly connected to the Kansas City Southern México rail line and key trucking corridors. Adjacent to Querétaro International Airport, with immediate access to Highway 57, it ensures efficient access to national and international markets at competitive logistics costs.

- **Operational efficiency, safety, and scalability** built into facility design
- **Direct access to key consumer markets within 4 hours, covering 46% of Mexico's population**
- **Competitive and qualified workforce**, ideal for aerospace, logistics high-tech, and industrial sectors.
- **Strong educational ecosystem** and labor stability for long-term operations
- **Only 20 km from Querétaro Downtown**
- Located in one of **Mexico's fastest-growing economic regions**
- Offers **sustainable and efficient business development conditions**

Robust Infrastructure

The warehouse is equipped with world-class infrastructure suitable for manufacturing, warehousing, distribution, and logistics operations. Its design ensures operational efficiency, safety, and scalability for companies of all sizes.
