

Dōmad

BROCHURE 2026

BE WHERE YOU WANT TO BE
- DŌMAD

WE ARE REVOLUTIONIZING *the real estate* INDUSTRY.

| *We are redefining the way people live in nature.*

High-end living powered by applied technology, with
a buying experience as simple as ordering online.

BROCHURE 2026

A different way to live

Delivered in weeks

A streamlined system that allows us to manufacture and install your Dōmad in just weeks. Each unit is built in a controlled facility, dramatically reducing timelines compared to traditional construction.

No on site construction

Thanks to our efficient modular building system, installation and delivery take only days once on site—while maintaining a luxury standard through the use of premium materials.

Transportable. Low environmental impact.

Our prefabricated design and pile foundation system allow each hometainer to be assembled in modules and reassembled in a new location if needed adapting to the land while minimizing environmental impact.

THE DOMAD SYSTEM

Portfolio Models

1. Choose one of our 5 pre-designed models with delivery in 90 business days. As easy as ordering online.

2. Choose the option that best suits your needs.

ESSENTIAL

- Functionality
- Durability
- High ROI

DŌMUS

- Premium Finishes
- Superior Durability
- Low Maintenance

*Delivery and installation timelines may vary based on production capacity.

DŌMAD ENGINEERING

We don't simply repurpose shipping containers we deliver a home built through architecture, design, and engineering.

*OUR PRICES INCLUDE TRANSPORTATION
THROUGHOUT THE YUCATÁN PENINSULA.

- **Industrial Manufacturing**

Manufactured in a controlled factory environment under strict quality standards (Similar to ISO 9000). Built with native Corten steel structures.

- **Thermal & Acoustic Insulation**

High density closed cell polyurethane insulation (R-7.5), specifically engineered to withstand the region's extreme climate conditions.

- **Hurricane Resistant Engineering**

Structural calculations and engineering studies approved in compliance with Mexican building regulations. Designed to withstand hurricane-force winds.

- **Corten Steel Structure**

Built with Corten steel containers, offering superior corrosion resistance and exceptional durability in the peninsula's tropical climate.
